

REMARKS

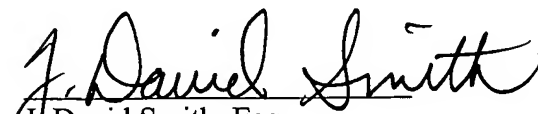

Claims 1-24 and 26-42 are pending.

Applicants incorrectly amended paragraph [0032] in the Amendment and Response filed on October 20, 2006. Applicants herein provide supplemental amendment to the subject paragraph to clarify that the "filler applied as aqueous suspension on the fibre mesh" can comprise the recited amounts of dry extract. No issue of new matter arises by way of this amendment because the instant amendment brings the paragraph in line with the meaning clearly conveyed by the specification as originally filed.

CONCLUSION

Entry of the foregoing amendments and remarks into the record of the above identified application is respectfully requested. It is believed that all of the claims are in condition for allowance. If any issue can be resolved telephonically, the Examiner is requested to call the undersigned at the phone number provided.

Respectfully submitted,

J. David Smith, Esq.
